Re: Tidewater Baling Corporation  
Docket No. II TSCA-PCB-88-0110

Dear Mr. Levao:

I contacted Ed Phillips, DEP, and we agreed that DEP will focus on the off-site PCB contamination from Tidewater, and that EPA will focus on the on-site PCB contamination at Tidewater. Therefore, EPA will insist on a site-wide investigation at the Tidewater facility. EPA's sampling analysis indicates PCB contamination at a location other than the baler, thus EPA must determine the extent of contamination. Also, you may be assured that DEP will not request further analysis on-site; DEP will focus on run-off contamination in the score-board area and other off-site locations.

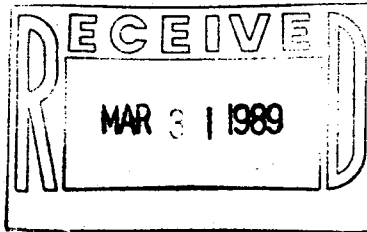

Feel free to contact me at (212) 264-8929.

Sincerely,

Carl R. Howard  
Assistant Regional Counsel  
Waste and Toxic Substances Branch  
Office of Regional Counsel
